I would like to introduce myself, Mawar Noor Binti Abdullah as a Pustakawan (Unit Pembangunan Bibliografik dan Pemprosesan Teknikal) at PTDI. For your information, I'm one of the first batch of DIIM students in 2001-2003 at UiTM Johor. It is an honor for me to be a part of PTDI staff in serving UiTM Johor staff and students for their teaching and learning development.

As a fresh graduate, I started my career as a Volunteer (indexing and abstracting) at Perdana Leadership Foundation (Tun Dr. Mahathir's office), Putrajaya. Two months after that I took a new job at Monash University and Learning Commons as a Library Assistant in Client Department. Here, I was able to furnish my English communication skills and also public relations skills. I was very lucky because after seven months struggling at the counter dealing with Sunway and Monash patron, I was appointed to a new position as an Acquisition Librarian and it was a very challenging and exciting experience.

It has contributed much to my knowledge and skills while dealing with the national and international book suppliers, lecturers, researchers and students.

My position required me to liaise with academic staff in acquiring books & AV items, manage the allocation and expenditure of library budget, hold acquisitions events, conservation of books and serials, weeding and discarding exercises, user education program and provide reference services. Being in late night shift, working on Saturday and Sunday was a must for me and I enjoyed it a lot. When I remember the difficulty, pressure, demand and how fast I had to think, act and move in Monash, I always thank ALLAH on what I get today.

For your information, Monash University Library and Learning Commons brings together library and modern IT resources in a user-friendly learning environment. Here, patrons had a special privilege to borrow an additional of five(5)books from Tun Hussein Onn Library (THOL) at Sunway University College as they shared their collection. This Library offers comprehensive print as well as electronic resources from Monash University Library in Australia coupled with a wide range of services to support information needs of their patron. The library is currently providing 53,000 volumes of printed materials consisting of books and journals. They also have an electronic resource which provides access to 750 databases, 243,838 e-books and 33,991 e-journals covering full range of disciplines.

Monash University Library and Learning Commons services and facilities include:-

1. Information Desk - one stop information centre for library users. Staff from the Library, IT Services, Student Services and Student Admin will assist users in locating relevant information resources as well as information about Monash University.
2. Info Skills Classes.
3. Loans - user friendly Self - Loan Machine that allows members to borrow library materials by themselves.
4. Document Delivery - allows postgraduate and honors students and staff to request documents that are not available in the library resources.
5. Express Terminals- 19 express terminals for quick searches on library catalogue and locating library materials.
6. Computer Workstations - incorporate 82 workstations for students to access the Internet and electronic resources.
7. Book Returns - a convenient way of returning library materials even after office hours. To return library materials, patrons just have to drop them in the book return chute at the left corner of the library entrance.
8. Multimedia Workstations - 8 multimedia workstations for viewing AV materials on CDs and DVDs.
9. Printing and Photocopying.
10. Wireless network.
11. Group study rooms.
12. Postgraduate Study areas.

## THE KOREA-JAPAN EXPLORATION PROGRAMS (PART 1)

The Korea-Japan Exploration Programs project started since early 2006 in collaboration with Regional Islamic South East Asia Pacific (RISEAP - Kolonel Haji Shahrir Hashim). The first idea was to organize it in Korea and Japan, which was brought up by the group leader, Miss Rabiatul Adawiyah Kamarulzaman, and the Head of World Civilization Research Group (GPTD), Mr. Jufitri Joha. Selected dates were from 28th May 2007 until 6th June 2007 (Korea), and from 7th until 10th June 2007 (Japan), agreed by 5 committee members.

In order to ensure the successful of this project, we organized monthly meetings with every member of the group at GPTD's Secretariat Room, Anjung Rahmat, Gombak, Kuala Lumpur, Malaysia. Furthermore, a meeting with Kol. Shahrir from RISEAP held at PERKIM Building, 5th Floor, Jalan Ipoh, Kuala Lumpur, Malaysia, was also conducted to make sure that this project would become a reality. We also managed to get sponsors from two Islamic organizations, Korea Muslim Federation (KMF) and Japan Muslim Association(JMA), which include accommodation and transportation for all of us in both countries.

Japan Muslim Association(JMA), which include accommodation and transportation for all of us in both countries.

We arrived in Korea on 28th May 2007 (8:30 a.m. – Korea time) – one hour earlier than Malaysia time. But Allah knows why we had to face many difficulties, misunderstandings and miscommunications between KMF and JMA. However, as soon as we reached Korea to implement and execute this project, we got the best cooperation and supportive responses from KMF (Imam Abd. Rahman), although they didn't know much about our missions and schedule. Moreover, KMF also had been very generous to let us stay (3 days and 2 nights) in one of the rooms in Seoul Central Mosque. We really appreciate their kindness. May Allah bless and repay them.

Another thankful to Allah, who allowed us to implement and precede our project in Korea for another 6 days. We requested to stay with Malaysian Students at their Hostel in Dongyang Technical College and they were very pleased and welcomed us to stay with them, alhamdulillah. However, we still had to struggle to survive in Korea and to get funds and donations in order to buy flight tickets to Tokyo, Japan. In addition, we also had to consider reducing our days of staying in Japan because we couldn't get visa to Japan as mentioned earlier by the embassy of Japan in Korea. Without visa we can only stay in Japan up to 3 days.

### ABOUT THE WRITER

Rabiatul Adawiyah binti Kamarulzaman (Master in Information Management, UiTM, & Bachelor of Sc. (Hons) Library Management, UiTM)

#### Experience:

Librarian, Law Library of RCAKL (Regional Centre for Arbitration Kuala Lumpur) (1 ½ years)

As a Librarian of specific Law Library in a semi-government international company, it was a huge challenge for me to always interact with judges, lawyers, and arbitrators from all over the region. I was incharged in handling research papers, articles, publications.

Reference Librarian, UiTM Johor  
(Current)

Responsibilities of a Reference Librarian are not much different from my previous experience. However, working in an academic organization requires bigger exposure to knowledge management where I have to develop myself to learn and know more because I do believe that with wider knowledge I could assist lecturers and colleagues effective and in more efficient manner. Sharing of ideas and knowledge seem to be more encouraging in the academic organization.

Through daily experience together with my nature love for books and knowledge, and with courage and support from all colleagues and family, I really hope to become the best knowledge-related person in my areas. I do believe people will only improve themselves through knowledge and intelligence, insyaAllah. I wish to be able to keep improving in every related area to achieve this vision. As for my organization, I hope I could improve confidence level, productivity, foster efficiency and ensure success of Perpustakaan Tun Dr. Ismail, amin...

Millions of  
thanks  
and  
regards.
